A highly skilled front-end developer with 4 years of experience developing user-friendly, responsive websites and web applications. Proficient in HTML, CSS, JavaScript, and various frontend frameworks such as React, Angular, and Vue. Experienced in collaborating with cross-functional teams and clients to understand project requirements, and design specifications, and translate them into functional, visually appealing web pages. Strong attention to detail and a passion for creating elegant, efficient, and effective user interfaces. Adept at staying up-to-date with the latest web technologies and trends, and eager to continue learning and improving skills.

Relevant Experience

Senior Frontend Developer,
Dafater
August 2021 - Present
Developed three projects using Vue 3 from a to z, integrated with Payfort payment gateway, and azure ad b2c.
Created HTML email templates, and created reusable components using Vue 3 and JS native.

Freelance Frontend Developer
June 2021 - Present
Built an Angular e-commerce store, created screens in React Native for eCommerce and real estate mobile apps, and cooperated in a project called Bluepages using Next JS and Tailwind CSS. Built fully functional eCommerce sites using WordPress for clients.
